Dr. Solmaz Golsabahi-Broclawski

11. November 2024, 14.PM-18.30 PM European Time
Online-Zoom-Meeting

Informations and Registration: tagung@mitk.eu

Promotional material on The Role of Culture in Medicine

1) Greetings and Introduction

2) Title of Presentation: The Role of Culture in Medicine

3) Background:

Kraepelin and Carl Jung over 100 years ago while working with people from diverse cultures alluded to the role of culture in the etiology and definition of illness. Meanwhile, psychologists explored the relationship between culture and personality. In 1965, an important conference was held in London under the sponsorship of Ciba Foundation. The purpose of that conference was to define the field of cultural psychiatry, its boundaries, and gaps in treatment and research. Since then there have been the introduction of research instruments, treatment manuals, and the development of newer models of understanding illness and disease. With globalization, decolonization, continuing immigration, and refugee problems and a shrinking world the role of culture in medicine has become prominent. This has been made even more so with the worldwide experiences of pandemics such as COVID.

4) Objectives:

In this presentation we will explore the intellectual history of the concept of culture, its evolution and transformation, its role in contemporary understanding of the etiology of diseases and illness, treatment issues, and service delivery.

Vorgespräch/Erstsicht

Name Patient/in: _____ geb.: _____

Krankenversicherung: _____ vorgestellt am: _____

Aktuelle Telefonnummer: _____ gut erreichbar: _____

Auf Rat / Überweisung von: _____

Anlass des Wunsches nach ambulanter PT (aktueller Konflikt / auslösende Situation, etc.):

Symptomatik:

Besonderheiten Psychischer Befund:
